

I Can Be Safe at the Store

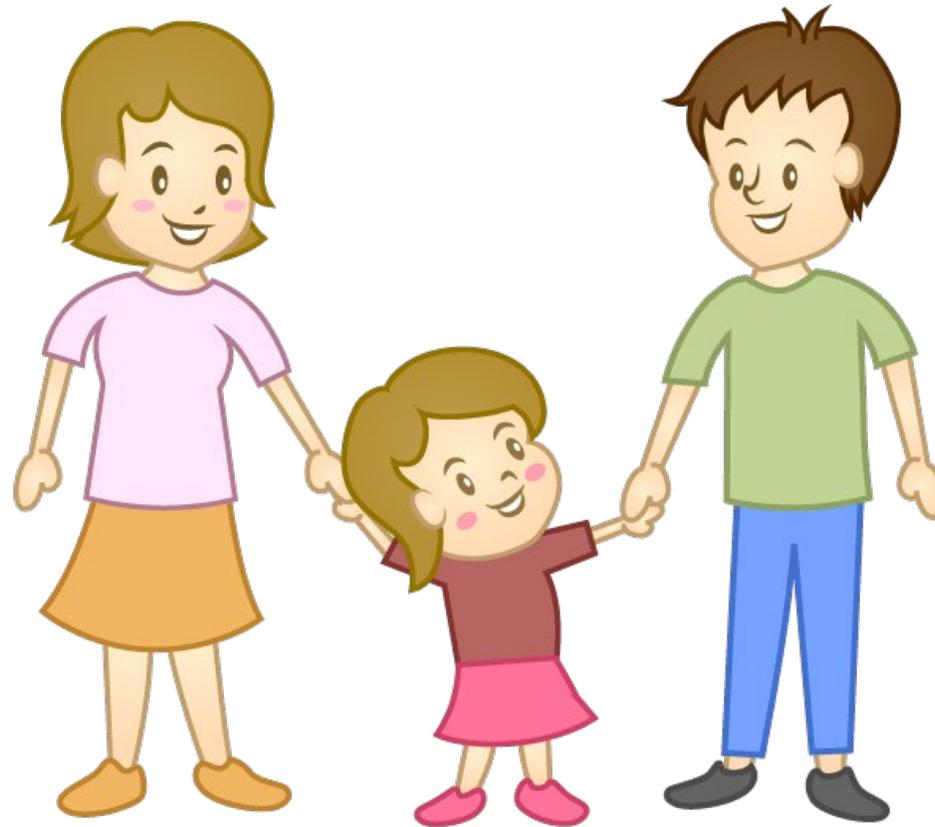

I am going to the store with my family!

When we get to the store, we will get a shopping cart. Mom and Dad will pick out food, clothes, and other things we need and put them in the cart.

It is important that my body is safe when we go to the store. I will stay close to my mom and dad. I can hold hands if that helps me stay close.

There are many fun things to look at when we go to the store. I will use my eyes to look. I will not use my hands to look.

I can ask Mom and Dad if I can help them push the cart. Mom and Dad will help me be safe while pushing the cart. We cannot go too fast and we don't want to hit other carts or people with our shopping cart.

Younger kids
can sit in the
cart. I will
not stand up
in the cart
because it is
not safe.

When we have everything we need, we will all go to the cashier together. Mom and Dad will pay for the things we are buying. I will have a safe and quiet body when they pay.

Someone may help us put our groceries into bags. If we have a lot of bags, we will put them back into the cart.

Finally, we will all leave the store together with our groceries. Going to the store is so much fun!
